Times News Network

**Kochi:** The National Service Scheme (NSS) volunteers of St Paul's College, Kalamassery, launched a project to provide food to the poor and homeless. Through the project named Kanivu, the volunteers will bring 'pothichoru' from their homes and distribute it to the poor at various parts of the city. As the first phase, 200 packets have been distributed in Kaloor, Edappally and other places on Tuesday.

Though the initial plan is to do the distribution twice a month, the volunteers aim to eventually involve nearly 2,500 students and teachers of the college to voluntarily contribute to the project by providing a food packet, so that they could do the distribution daily throughout the year.

The project was inaugurated by Thrikkakara MLA Uma Thomas on Tuesday at a function attended by Thrikkakara municipality chairperson Ajitha Thankappan, Edappally block panchayat president Treesa Manuel and college NSS programme officer Rajeshmon V.G.

NSS student volunteer secretary Rajeev Patric said that the project was launched after realizing that hundreds of people struggle to find food in many parts of the city. Moreover, it aims to make students aware of the value of food as many of them often carelessly waste the food they bring.

"The food packets we collected were distributed so fast and it means that there are many needy people. We want to expand the project by involving more contributors," Patric said.

Each pothichoru is different in terms of the curries present in it but the food is homey, tasty and nutritious. Moreover the food is wrapped in plantain leaves to make the project eco-friendly.

"We have not given any particular menu. Volunteers can share whatever they cook at home. Almost all packets had at least three curries in addition to a non-veg dish like fish or chicken," Patric said.

Thrikkakara MLA Uma Thomas inaugurated the project on Tuesday

## **WORLD ENVIRONMENT DAY CELEBRATION 2022**

### **Invited talk on: ONE PLANET, ONE FUTURE**

Venue / Platform	: Baccinelli Hall
Date (s)	: 06/06/2022
Time	: 10:00 am -11.30 am
<b>Resource Person</b>	: Dr. Sindhu Joseph
Name of Collaborating Agency	: ENCON
(if any)	:
<b>Level</b>	: College
No: of teacher participants	: 9
No: of student participants	: 39

#### REPORT:

World Environment Day is the biggest international day for the environment. Led by the United Nations Environment Programme (UNEP), and held annually since 1973, it has grown to be the largest global platform for environmental outreach. It is celebrated by millions of people across the world. The theme for World Environment Day 2022 is "Only One Earth", with the focus on "Living Sustainably in Harmony with Nature". As part of World Environment Day celebration 2022, Dept. of Chemistry in association with ENCON Club organised an invited talk on "ONE PLANET, ONE FUTURE". The resource person for this session was Dr. Sindhu Joseph, Head, Dept. of Chemistry, Bharata Mata College, Thrikkakara. Around 40 students from various departments participated in the session. The special invitee, Dr. Sindhu Joseph, handed over tree saplings to our UG and PG student representatives. These saplings were later planted near the UG lab by the students and faculty members.

#### OUTCOME:

The purpose of World Environment Day is to spread awareness about the threat to the environment due to rising pollution levels and climate change. "World Environment Day is a reminder for us to pause and reflect on our actions and their subsequent consequences on the planet. We are living in a world where averting our eyes from the climate crisis is not an option. Ecosystem restoration means undoing the damages caused to the environment by humans to save Earth. The talk helped to reinforce the need to protect our environment for better tomorrow among the minds of younger generation.

World Ozone Day 2022 is marked on September 16 to commemorate the signing of the Montreal Protocol, an international treaty that is designed to protect the Ozone layer by phasing out the production of numerous substances. World Ozone Day 2022 is celebrated every year globally on September 16 to initiate conversation and spread awareness on the depletion of the Ozone layer. Every year World Ozone Day theme is also announced by the United Nations focusing on the immediate actions that must be taken by the people as well as the governments. Ozone is a protective layer in the Earth's atmosphere that absorbs most of the ultraviolet radiation that reaches the Earth from the sun. World Ozone Day 2022 is observed to spread awareness about the ways that are effective in protecting the Ozone layer. World Ozone Day 2022 theme is 'Global Cooperation to protect Life on Earth'. The theme of World Ozone Day announced by the United Nations highlights the collective efforts that must be put in for the protection of life on the Earth.

As part of World Ozone Day celebration 2022 Department of Chemistry in association with ENCON Club organised a seminar on “Ozone Layer-Global Cooperation Protecting Life on Earth”. The resource person for the session was Dr. Rejimon P. K., Asst. Professor, Dept. of Chemistry, Maharajas College, Ernakulam. Students from various departments participated in this session.

**Benefits in terms of learning/skill/knowledge obtained:**

The seminar helped the to raise awareness about the significance of the Ozone layer to the environment among the students.

# 10. MOTOR CYCLE RALLY

## “Come with us and Be Drug Free”

ANTI-NARCOTIC MOTOR CYCLE RALLY FROM LITTLE FLOWER ENGINEERING INSTITUTE

Our institution participated in the Anti-Narcotic Motor Cycle Rally from Little Flower Engineering Institute at 12:15 PM on 20-10-2022 in the College Campus. Our Institution has received an appreciation from the Little Flower Institute. St. Paul’s College expressed solidarity with the motor rally participants that arrived in the college campus.

The poster features a group of students in blue shirts and helmets riding motorcycles. A red prohibition sign with a green marijuana leaf is in the top right corner. The main text reads "ANTI-NARCOTIC MOTOR RALLY" in large white letters on a teal background. Below it, it says "Come with Us and Be Drug Free" and "Scan & Register Now" with a QR code. The date and time are "TH 20 THURSDAY OCTOBER 10:30 AM". The bottom section contains logos for Little Flower Engineering Institute, Rotary Club of Kalamassery, LFEI Welfare Guild, Imagine Rotary, Rainbow Opportunities to Serve, and Rotaract Club of Little Flower Engineering Institute.

HEAD OF DEPARTMENT :  
RESHMA MARIAM MOHAN,  
DEP OF BUSINESS ADMINISTRATION

Have you heard about Zero Waste Grocery Store?

Are you worried about all the plastic that we are dumping outside which eventually reaches our oceans?

If you are one of those who cares about our environment and is looking for ways to reduce plastic in your life, then you should listen to the MALAYALAM Podcast with Bittu John Kallungal.

Bittu is an engineering graduate who completed his BTech in Aeronautical Engineering and MTech in Industrial Engineering. He quit his engineering job to start India's first plastic Free grocery store.

This store runs on a no plastic pathway where absolutely zero plastic is deployed in the functioning of the entire shop, from storage to selling. The customers who visit this shop are instructed to bring their own containers and get them refilled from here, absolutely eliminating the façade of packaging and thereby plastic usage. The commodities to be sold are stored with specially designed high-quality glass storage equipment, imported exclusively from London and Germany.

The Department of Commerce SF has conducted a Seminar on the topic “Intellectual Property Rights” on 21<sup>st</sup> March 2023 at our own Classroom no: T03. The Seminar was started by 10am. The Speaker of the session was Adv. Lekha Menon, who is a leading advocate in High Court of Kerala. The Program was started with a Welcome Speech by Nanda Chandran, Second Year B. Com Student. The Program was arranged for first and Second year B.com Students. The Speaker has given a brief idea on the topic “Intellectual Property Rights”. In Total 54 students and 4 teachers were participated in the program. The students are actively involved in the program and clarify their doubts regarding the topic. The Program was end up with a vote of thanks given by Kavya, Second Year B. Com Student, at 11.00am. Overall the Program was a great success.

### **Benefits in terms of learning/skill/knowledge obtained:**

Though they have a basic idea about the various laws prevailing in our country, they don't have much knowledge on the term “IPR”, the students through this program obtained a brief idea regarding the Intellectual Property Rights and Why it is so important in the current scenario. The speaker has explained the term in a very easy manner which made the students to show a keen interest in hearing the session carefully.

As an initiative to inculcate research interest and scientific attitude among students, Department of Chemistry organized Research Aptitude Development Programme (ReAD 2022). 62 students from our UG and PG classes participated in the session handled by one of our prominent Alumni Dr.Jennes Mathew,Asst Professor ,Morning Star Home Science College,Angamali.

### **Benefits in terms of learning/skill/knowledge obtained:**

The session helped the students to evoke their research interest and ideas. They got an opportunity to interact with the resource person who shared her research experiences. Also gained an awareness about the recent trends in the research and the challenges faced by a researcher.

Professor J. N. Moorthy is an organic chemist with interests in a range of areas that include organic photochemistry, supramolecular chemistry, organic materials and mechanistic organic chemistry. In recognition of his contributions in chemistry, he has been awarded the prestigious Shanti Swarup Bhatnagar Prize and the J. C. Bose National Fellowship. He is an elected fellow of Indian Academy of Science (FASc.), Bangalore and Indian National Science Academy (FNA), New Delhi. He is also a fellow of the Royal Society of Chemistry (FRSC). He is a recipient of bronze and silver medals from Chemical Research Society of India (CRSI). He has won several other accolades, and has been a Visiting Professor in institutions across Japan, France and Germany.

**Prof. K. George Thomas**  
Dean of Faculty Affairs  
IISER

### Report of Erudite Lecture - 19, 21 and 25 July 2022

### International webinar

**Title of the Programme:** ERUDITE LECTURE SPONSORED BY KERALA STATE HIGHER EDUCATION COUNCIL

**Date :** 19, 21 and 25 July 2022

**Venue:** ONLINE

**No: of Beneficiaries/ Participants:** 300

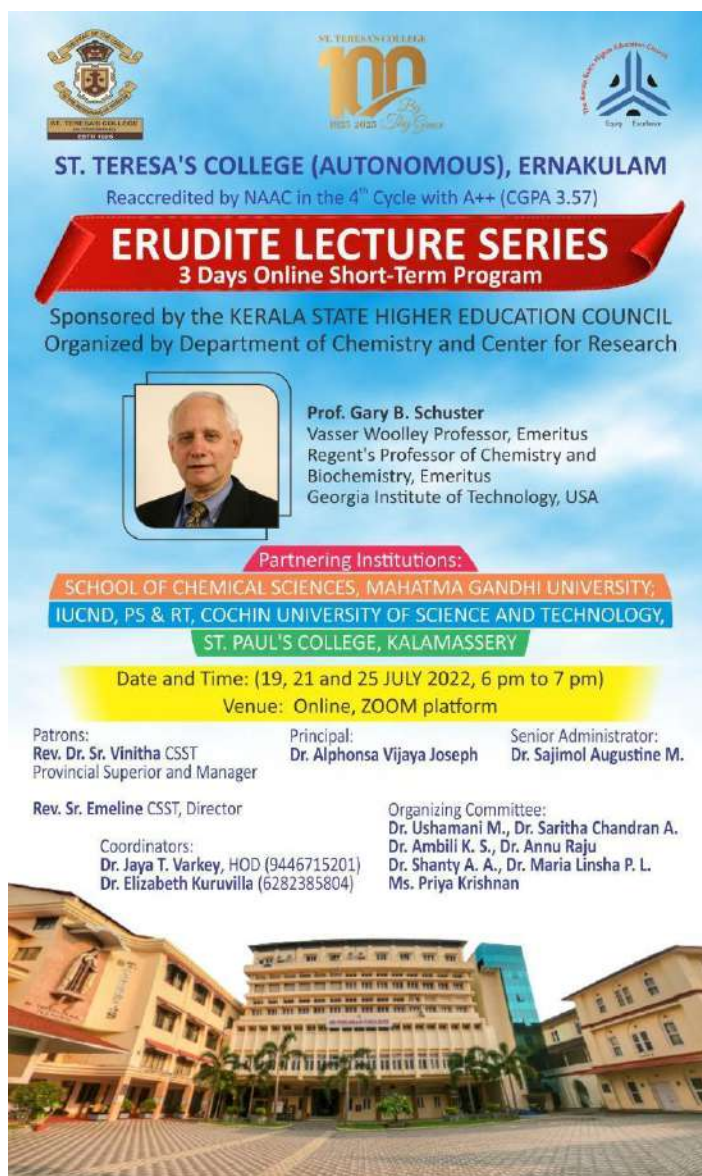

**Beneficiary type:** UG, PG, Research Scholars and Faculty of Chemistry

Activity Description (100 - 200 words): Three days online lecture series under the Erudite program of Kerala State Higher Education Council was organised by the department of chemistry and centre for research, St. Teresa's College (Autonomous) in association with School of Chemical Sciences, M. G. University, IUCND CUSAT and St. Paul's College, Kalamassery on 19, 21 and 25 July. The Erudite program aims at providing an opportunity to teachers and students to interact with eminent scientists working in the frontiers of research exposing them to fresh areas of research and inspiring them.

The Erudite scholar for the series, Prof. Gary B. Schuster, Vassar Woolley Professor, Emeritus, Georgia Institute of Technology talked about the latest findings in understanding the chemical evolution of life which not only tries to unravel the mysteries of origin of life on earth but also provides a deeper insight about the structure and functions of biomolecules. Prof. Schuster has also made significant contributions towards understanding chemiluminescence, mechanisms of DNA damage and DNA directed self-assembly. Prof. Schuster has served as Provost, executive Vice President and Interim President of Georgia Institute of Technology.

**Outcome of the activity:** Inspired students to take up research , exposed them to frontier areas of research taking place in the internationally.

## WORLD OZONE DAY CELEBRATION – 2022

### SEMINAR on “Ozone Layer-Global Cooperation Protecting Life on Earth”

<b>Venue / Platform</b>	: Baccinelli Hall
<b>Date (s)</b>	: 27/09/2022
<b>Time</b>	: 11.45-12.45 pm
<b>Resource Person</b>	: Dr. Renjimon P.K.

World Ozone Day 2022 is marked on September 16 to commemorate the signing of the Montreal Protocol, an international treaty that is designed to protect the Ozone layer by phasing out the production of numerous substances. World Ozone Day 2022 is celebrated every year globally on September 16 to initiate conversation and spread awareness on the depletion of the Ozone layer. Every year World Ozone Day theme is also announced by the United Nations focusing on the immediate actions that must be taken by the people as well as the governments. Ozone is a protective layer in the Earth's atmosphere that absorbs most of the ultraviolet radiation that reaches the Earth from the sun. World Ozone Day 2022 is observed to spread awareness about the ways that are effective in protecting the Ozone layer. World Ozone Day 2022 theme is 'Global Cooperation to protect Life on Earth'. The theme of World Ozone Day announced by the United Nations highlights the collective efforts that must be put in for the protection of life on the Earth.

As part of World Ozone Day celebration 2022 Department of Chemistry in association with ENCON Club organised a seminar on “Ozone Layer-Global Cooperation Protecting Life on Earth”. The resource person for the session was Dr. Rejimon P. K., Asst. Professor, Dept. of Chemistry, Maharajas College, Ernakulam. Students from various departments participated in this session.

#### **Benefits in terms of learning/skill/knowledge obtained:**

The seminar helped the to raise awareness about the significance of the Ozone layer to the environment among the students.

## WORLD ENVIRONMENT DAY CELEBRATION 2022

### Invited talk on: ONE PLANET, ONE FUTURE

Venue / Platform	: Baccinelli Hall
Date (s)	: 06/06/2022
Time	: 10:00 am -11.30 am
<b>Resource Person</b>	: Dr. Sindhu Joseph
Name of Collaborating Agency	: ENCON
(if any)	:
<b>Level</b>	: College
No: of teacher participants	: 9
No: of student participants	: 39

#### REPORT:

World Environment Day is the biggest international day for the environment. Led by the United Nations Environment Programme (UNEP), and held annually since 1973, it has grown to be the largest global platform for environmental outreach. It is celebrated by millions of people across the world. The theme for World Environment Day 2022 is "Only One Earth", with the focus on "Living Sustainably in Harmony with Nature". As part of World Environment Day celebration 2022, Dept. of Chemistry in association with ENCON Club organised an invited talk on "ONE PLANET, ONE FUTURE". The resource person for the session was Dr. Sindhu Joseph, Head, Dept. of Chemistry, Bharata Mata College, Thrikkakara. Around 40 students from various departments participated in the session. The special invitee, Dr. Sindhu Joseph, handed over tree saplings to our UG and PG student representatives. These saplings were later planted near the UG lab by the students and faculty members.

#### OUTCOME:

The purpose of World Environment Day is to spread awareness about the threat to the environment due to rising pollution levels and climate change. "World Environment Day is a reminder for us to pause and reflect on our actions and their subsequent consequences on the planet. We are living in a world where averting our eyes from the climate crisis is not an option. Ecosystem restoration means undoing the damages caused to the environment by humans to save Earth. The talk helped to reinforce the need to protect our environment for better tomorrow among the minds of younger generation.

National Science Day is celebrated in India on February 28 each year to mark the discovery of the Raman Effect by Indian physicist Sir C. V. Raman on 28 February 1928. Science Day Celebrations was organized by Department of Chemistry on 28 February 2023. The theme of national science day 2023 is "Global Science for Global Wellbeing," which reflects the nation's increasing international visibility and significance. The programme started with a silent prayer. Then a warm introduction about the resource person is given by Ms Fiya of I MSc Chemistry. Dr.Ajish K.R our resource person delivered a inspiring talk on

**Benefits in terms of learning/skill/knowledge obtained:**

The session was very much inspiring and got an insite about the current research and developments in natural product chemistry. Actually he is the apt person to carryout this session for everyone because of his knowledge in this field.

The orientation about the upcoming courses Data Science and Data Analytics were discussed in detail by the speaker. It was conducted for the students of Department of Mathematics in Association with IIC and IEDC on 12th August 2022 in the S 28 class room. The speaker gave the students a clear idea about the course, its fee structure and job openings. It was also accompanied with a question answer session for the students to clarify their doubts. Finally, Krishnendu of third BSc Mathematics offered the vote thanks to all.

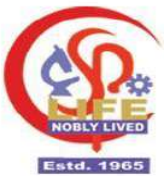

### Objective

To introduce and aware about the career opportunities of data analytics

### Benefits in terms of learning/skill/knowledge obtained:

The students had a better understanding of the course like Data Science, Data Analytics and the career opportunities.

<b>No. of participant from public</b>	: 25

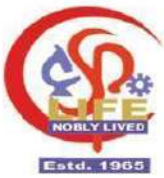

The Department of Physics organised in association with IIC a SkyWatch Workshop session for the students of the college and for open public from neighbouring communities. The workshop comprises two sessions a). an awareness class on observational astronomy and b) a sky watching session using an 8 inch reflecting type telescope. Both the sessions are handled by Dr. Nijo Varghese N assisted by Dr. Tharanath R. First session started at 5 pm with a formal welcome by Dr. Poornima n., Head of the Department of Physics. Dr. Priyesh K. V, coordinator of the programme, officially introduced the speaker. This session lasted for one hour, and ended with a question answer session.

The Skywatch session started by 6.40 pm in which a 5 inch telescope owned by the department and an 8 inch telescope by Astronomical Society of Kerala were set up on the open terrace. Public and students observed the moon, planets, clusters etc., using telescopes. Participants interacted with resource persons and cleared their doubts. This session ended at 9.00 pm.

#### **Benefits in terms of learning/skill/knowledge obtained:**

Students and the public who have participated in this event were greatly benefited in terms of amateur astronomy. In the first session the speaker explained what is to be expected during a sky watch session and how the photos of the sky are being taken. He also explained about planets, constellations etc. after attending the session the participants would be able to understand the steps to be followed for sky watching and also acquire a skill for watching the sky with naked eyes and differentiate different celestial objects.

Department of Chemistry, St Paul's College, Kalamassery organised a talk on “ **SOCIAL CONSTRUCTION OF GENDER**”. The resource person for the talk was Dr. Sreelakshmi J, Assistant Professor, Department of English, St. Paul's college, Kalamassery. Gender refers to the characteristics of women, men, girl and boys that are socially constructed. This includes norms, behaviours and roles associated with each other. As a social construct, gender varies from society to society and can change over time. Society and culture creates gender roles, and these roles are prescribed as ideal or appropriate behaviour for a person of that specific gender.

### **Benefits in terms of learning/skill/knowledge obtained:**

This session helped to make the people understand the difference between sex and gender, how gender is socially constructed. Also participants got an insight about the gender identity.

### **About the Programme:**

The Department of Physics organizes a “Meet the Scientist” Program every year. This year a seminar was conducted on the topic ‘Climate Change’ by Dr. M. R. Ramesh Kumar (Chief Scientist (Retired) & Head of POD, NIO, Goa) on 10<sup>th</sup> of March at 12 p.m. in the Baccinelli Hall. The seminar gave insight into the issue of climate change, its causes and consequences, role of oceans on climate change, greenhouse effect and global warming, various technologies to help us adapt to climate changes etc. The speaker also shared his experience of visiting Antarctica. There was a question and answer session towards the end of the program where the students got to clear their doubts on various topics including career paths. The program ended by 1.30 p.m.

**Outcome of the program :** The session was very useful to all the students. They were enlightened on the need to take environmental issues seriously and that the change should start within themselves. Also, students got to know about the scope of fields like oceanography and meteorology so that if interested, they could pursue their further studies in these fields.

## **Report: Vegetable Farming Project at St. Paul's College, Kalamassery.**

### **Introduction:**

The vegetable farming project at St. Paul's College, Kalamassery, aims to inculcate a culture of farming among students while promoting healthy eating habits. The project is supported by the Department of Agriculture, Government of Kerala, under the initiative called Sustainable Campus Agriculture. The project's inauguration was held under the esteemed presence of Sri. P. Rajeev, Minister for Industries, Law and Coir in the Government of Kerala. A total amount of 74,000/- was sanctioned for the successful implementation of the project.

### **Project Objectives:**

The main objectives of the project are as follows:

- To promote a farming culture among students and raise awareness about the importance of sustainable agriculture.
- To cultivate and provide healthy, organic vegetables to students and teachers within the college community.
- To encourage the use of organic fertilizers and pesticides for cultivation, minimizing the environmental impact.
- To showcase the potential of sustainable agriculture in small-scale farming.

### **Cultivation Details:**

The vegetable farming project utilizes a total area of 50 cents (approximately 0.5 acres) within the college campus. Around 150 students participated in the project, which proved to be a motivating experience for them, leading them to pursue vegetable farming in their own homes. Initially, the farming was carried out using grow bags, with cabbage and cauliflower being planted in each bag. Each student prepared and labeled their own grow bag. However, we later improved the process by transitioning to cultivating directly on land. To prevent the growth of unwanted plants and ensure effective utilization

of fertilizers, we employed mulching sheets. The entire area was covered with these sheets, and small openings were made to plant the vegetables. Water-soluble fertilizers were utilized for optimal growth. Various crops have been cultivated, including brinjal, tomato, chilli, snake gourd, bitter gourd, cucumber, vallipayar, kutti payar, pumpkin, spinach, and more]. These crops have been carefully selected to cater to the nutritional needs of the college community while ensuring a diverse and sustainable cultivation system. Eventually, the vegetables yielded a revenue of approximately 22,000 rupees through sales.

### **Marketing and Sales:**

The harvested vegetables from the project will be sold within the college premises to both students and teachers. This initiative not only promotes healthy eating habits but also creates a direct connection between

the produce and the consumers. It encourages the consumption of locally grown, organic vegetables, which have a positive impact on personal health and the environment.

### **Use of Organic Fertilizers and Pesticides:**

To ensure the production of healthy and organic vegetables, the project strictly adheres to the use of organic fertilizers and pesticides. Chemical-based fertilizers and pesticides are avoided to minimize the environmental impact and promote sustainable agricultural practices. The project serves as an excellent example of how farming can be done in an environmentally friendly manner.

16	Cauliflower	Grow bag	400/-

### **Conclusion:**

The vegetable farming project at St. Paul's College, Kalamassery, supported by the Department of Agriculture, Government of Kerala, has successfully demonstrated the importance of inculcating farming culture in students. Through sustainable agricultural practices, the project aims to produce healthy and organic vegetables for the college community. By promoting the use of organic fertilizers and pesticides, the project contributes to a greener and healthier environment. This initiative sets a commendable example for other educational institutions and highlights the significance of sustainable farming for a better future.

## VALUE EDUCATION REPORT

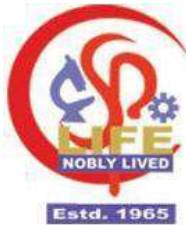

<b>Venue / Platform</b>	: CLASS ROOM
<b>Date (s)</b>	: 2022-2023
<b>Time</b>	: 10.20-11.10am
<b>Resource Person</b>	: TEACHERS
<b>Name of Collaborating Agency (if any)</b>	: COMMITTEE OF VALUE EDUCATION
<b>Level</b>	: Department
<b>No: of teacher participants</b>	: 32
<b>No: of student participants</b>	: 340

### **Brief Description:**

In 2022-23 Value education classes were conducted for the I UG students of every department. The syllabus prepared includes Civics & Patriotic concept, Habits of effective people, Success & Happiness, Motivation and Leadership and Basic Etiquette. Syllabus for value education was developed by Mr. Jose Xavier, Dr.Sumitha Franklin, Dr. Asha E Thomas, Mr.Texin George and Ms. Teresa Stephen. Value education classes were given during second and third week of a month. Values based education is an approach to teaching that works with values. It creates a strong learning environment that enhances academic achievement and develops students social and relationship skills that last throughout their lives. The positive learning environment is achieved through the positive value modelled by staff throughout the College. It quickly liberates teachers and students from the stress of confrontational relationships, which frees up substantial teaching and learning time. It also provides a social capacity to students, equipping them with social and relationship skills, intelligences and attitudes to succeed at college and throughout their lives.

### **Benefits in terms of learning/skill/knowledge obtained:**

Skills include problem solving, critical thinking, communication skills, decision-making, creative thinking, interpersonal relationship skills, self awareness building skills, empathy and coping with stress skills. Self-awareness, self-esteem and self-confidence are essential tools for understanding one's strengths and weaknesses. Consequently, the individual is able to discern available opportunities and prepare to face possible threats. This leads to the development of a social awareness of the concerns of one's family and society. Subsequently, it is possible to identify problems that arise within both the family and society

Level : College

No: of teacher participants : 5

No: of student participants : 9

### REPORT

A report of the spiritual activities of Jesus Youth for the students of St. Paul's College during the academic year 2022-23. The objective of Jesus Youth is to provide opportunities to ensure spiritual growth of the catholic students of the college. The coordinator and the members of Jesus Youth gather every Friday at 11.15 a.m. at the college chapel to have open discussions and motivational talks to ease the strenuous life of the youngsters irrespective of their religious differences.

On 31.10.22 Jesus Youth organized rosary recitation at the chapel. The prayer session was made solemn by the graceful presence of the manager Fr. Varghese Valiyaparambil.

### Programme Outcome

The Programme Outcome for the spiritual activities of Jesus Youth at St. Paul's College during 2022-23 include fostering spiritual growth among Catholic students, promoting inclusivity regardless of religious differences, and providing a supportive environment for young individuals. Through weekly gatherings featuring open discussions and motivational talks, students experience emotional and spiritual upliftment. The organized rosary recitation on 31.10.22, graced by Fr. Varghese Valiyaparambil, further enhances the solemnity and communal spirit within the college community, fostering a sense of unity and spiritual fulfillment among participants.
